MV 75 SWING INOX

**STAINLESS STEEL INDUSTRIAL VACUUM - SHIFTING CHAMBER - SEALING
BARS 620 MM**

DESCRIPTION

For all the needs of professional industrial packaging, minipack®-torre is proud to present the **Swing line**, a series of **industrial vacuum packaging machines** that can achieve high speed of operation, thanks to the sliding closure of the chamber. All the machines guarantee the maximum durability and reliability, thanks to the structure in stainless steel AISI 304, a high quality alloy that is often used in the industrial sector.

All the **industrial vacuum packaging machines** in the series are designed and manufactured according to CE regulations, thereby ensuring maximum safety and quality. Ample control possibilities: the digital display allows you to store and manage up to 10 different programs, while an analog volumetric sensor keeps always monitored the vacuum in the chamber and the ATM packing process.

TECHNICAL FEATURES

- Stainless steel (AISI 304)
- Vacuum cycle with stop
- Sealing bar with double strip
- Soft-Air device to ensure controlled air return, provided as standard
- Vacuum detection with timer
- Filling tables
- 10 customisable programs
- CE certification.
